SPORTS 640

At last your new boat has arrived...

Baysport Boats Sports 640 is one of the most practical and affordable six metre boats on the Australian market.

The hull with its twenty one degree deadrise offers a smooth dry ride suitable for family days on the water or heading offshore for a days fishing.

The layout of the boat is such that anglers can enjoy a great days fishing without tripping over each other, while the cabin with its twin vee bunks offers true overnight accommodation.

The versatility and practicality of the Baysport Boats Sports 640 is what makes this boat so popular.

The Sport 640 is a true performer on the water with appealing lines and a modern finish. What's more the Sports 640 can be comfortably towed with most mid-size or larger family vehicles and is not a handful at the ramp.

The Sports 640 incorporates Baysport Boats cutting edge convex hull design.
