- Ballast Flap with Actuator
- Trailer Stone Guards
- Outriggers

Bringing all-weather, hard top protection to those looking for a serious fishing machine in a compact package, the 585HT is ideal for bay, inshore and offshore fishing.

Measuring 5.85m length overall, with a 2.15m beam, and constructed from heavy duty, high-tensile 4mm (bottom sides) and 3mm (top sides) marine grade plate aluminium, it incorporates all of Bar Crusher’s exclusive features - high-tech Waveslicer non-pounding, deep-V hull, super-strong Rigideck sub-floor system with fully-welded checkerplate floor; and Quickflow water ballast technology for superior stability at rest.

The evolutionary Gen2 hull design combines key features including a wider negative chine running forward, optimised wider chine aft and the distinctive Delta Flare – delivering greater hydrodynamic lift for more efficient planning and improved fuel economy, a higher bow attitude and better spray deflection for a drier ride, as well as increased stability at rest.

This package is available with both Yamaha and Suzuki 4-Stroke Outboards

We offer in house finance and insurance packages to approved customers. Call us today to tailor a Bar Crusher package to suit your needs.
