- Outriggers

Bar Crusher's 670XSR is a hardcore fishing machine with maximum flexibility.

Nothing beats an open boat for fishability and the 670XSR - with its centre console and forward casting deck - delivers exactly what hardcore anglers demand.

Measuring 6.70m length overall, with a 2.35m beam, the 670XSR is constructed from heavy duty, high-tensile 5mm (bottom sides) and 4mm (top sides) marine grade plate aluminium. Its high-tech Waveslicer non-pounding, deep-V hull delivers an ultra-smooth ride, the expertly-engineered Rigideck sub-floor system ensures maximum hull strength and Bar Crusher's exclusive Quickflow water ballast technology ensures the boat is extremely stable at rest.

The innovative Quickflow system incorporates a cavity running the full length of the keel that quickly fills with water when the boat is stationary, which lowers the chines into the water for greater stability, and drains in seconds as the boat moves forward to allow it to leap effortlessly onto the plane.

This package is available with both Yamaha and Suzuki 4-Stroke Outboards

We offer in house finance and insurance packages to approved customers. Call us today to tailor a Bar Crusher package to suit your needs.
