Whether charging the bar, fishing overnight or punching into a messy sea on your way back to the ramp, Bar Crusher's 730C will get you there - quickly, safely and in comfort.

Measuring 7.30m length overall, with a 2.45m beam, the 730C is constructed from heavy duty, high-tensile 5mm (bottom sides) and 4mm (top sides) marine grade plate aluminium. Its high-tech Waveslicer non-pounding, deep-V hull delivers an ultra-smooth ride, the expertly-engineered Rigideck sub-floor system ensures maximum hull strength and Bar Crusher's exclusive Quickflow water ballast technology ensures the boat is extremely stable at rest.

The innovative Quickflow system incorporates a cavity running the full length of the keel that quickly fills with water when the boat is stationary, which lowers the chines into the water for greater stability, and drains in seconds as the boat moves forward to allow it to leap effortlessly onto the plane.

In stock and ready for immediate delivery.

This package is available with both Evinrude E-TEC and Suzuki 4-Stroke Outboards
