Bar Crusher’s 780HT is designed and built for long-range offshore sportfishing.

As the flagship Fishing Weapon of Bar Crusher’s range, the 780HT will get you wherever you want to go. Whether heading out fishing miles offshore or punching into a messy sea on a long run back to the ramp, the 780HT’s functional hard top pffers complete protection from the elements while the super-strong hull will eat up whatever weather is thrown its way.

Constructed from heavy duty, high-tensile 5mm (bottom sides) and 4mm (top sides) marine grade plate aluminium, the 780HT measures 7.80m length overall, with a 2.45m beam. Its high-tech Waveslicer non-pounding, deep-V hull deliveres an ultra-smooth ride, the expertly-engineered Rigideck sub-floor system ensures maximum hull strength and Bar Crusher’s exclusive Quickflow water ballast technology ensures the boat is extremely stable at rest.

The innovative Quickflow system incorporates a cavity running the full length of the keel that quickly fills with water when the boat is stationary, which lowers the chines into the water for greater stability, and drains in seconds as the boat moves forward to allow it to leap effortlessly onto the plane.

This package is available with both Yamaha and Suzuki 4-Stroke Outboards

We offer in house finance and insurance packages to approved customers. Call us today to tailor a Bar Crusher package to suit your needs.
