Terms & Condition

This weekly repayment estimate is provided by Stratton Finance Pty Ltd (Australian Credit Licence No. 364340) ("Stratton"). Stratton is a finance broker. This repayment is calculated with an interest rate of % p.a. over a term of months. The interest rate is indicative of the rates on offer through Stratton's lending panel. The repayment estimate applies to the price shown. The price shown may not include other additional costs such as stamp duty, government fees and other charges payable in relation to the item. This estimate should be used for information purposes only and is not an offer of finance on particular terms. Credit fees, service fees and charges may apply. Credit to approved applicants only. A quote, details of all fees and charges may be obtained by contacting Stratton via stratton.com.au or calling 1300 955 600.

steering, taking these engines to the next level when it comes to power, reliability and control.

The Integrated Hydraulic Steering system is housed in a neat, sealed cylinder unit, which is built into the transom bracket of the engine, rather than being a third-party bolt-on component. This results in a simple and clean rigging set-up, and an uncluttered bilge and transom area, while exposing less components to the elements for improved long-term durability and reliability.

This new range of four-cylinder integrated steering models are ideal for all applications, including new boat packages, existing boat repowers and multi engine set-ups.

The modernised F175 outboards bring a new level of delight to boating.
