Description

When it comes to exhilarating performance, no other engine matches the speed, weight and smarts of Yamaha’s VMAX SHO (Super High

Terms & Condition

This weekly repayment estimate is provided by Stratton Finance Pty Ltd (Australian Credit Licence No. 364340) ("Stratton"). Stratton is a finance broker. This repayment is calculated with an interest rate of % p.a. over a term of months. The interest rate is indicative of the rates on offer through Stratton's lending panel. The repayment estimate applies to the price shown. The price shown may not include other additional costs such as stamp duty, government fees and other charges payable in relation to the item. This estimate should be used for information purposes only and is not an offer of finance on particular terms. Credit fees, service fees and charges may apply. Credit to approved applicants only. A quote, details of all fees and charges may be obtained by contacting Stratton via stratton.com.au or calling 1300 955 600.

Output) four-stroke engines. The VMAX SHO high performance range was recently expanded to include the VF115, allowing smaller horsepower rated boats to take advantage of this high performance platform. This in-line four cylinder, 1.8 litre outboard is tuned to deliver additional top-end performance for high performance sports such as bass fishing, skiing and racing.

The VF115 has achieved significant weight reductions, by utilising a lightweight composite lower pan and cowling, a single-ram power trim and tilt mechanism, and a lightweight mounting bracket, delivering an exceptional power-to-weight performance. This compact, lightweight and capable engine delivers a performance typically associated with a two stroke, but with the convenience, reliability and whisper quietness of a four-stroke.Technical Specification
HeightL: 516 [20.3] | X: 643 [25.3]
